

## Environment Policy

Value Engineering Centre (VEC) is dedicated in our approach to the prevention of pollution, protection of environment and complying with legal & other obligations with a goal of minimum environmental impact resulting from our work.

The Director is responsible for this policy including effective implementation, operation and review.

All staff are responsible for the application of this policy.

### We at VEC:

- Establish and adhere to an effective, efficient and consistently applied Management System in line with ISO 14001:2015 requirements.
- Minimize pollution as low as reasonably practical (ALARP) and take necessary measures to protect the environment in which we operate.
- Comply with all applicable laws, regulations, standards, customer requirements and apply VEC standards where laws do not exist.
- Promote reduce, recycling, reuse & energy conservation.
- Establish and monitor environmental performance objectives.
- Ensure the environmental impact arising is minimized by applying best practicable option throughout its operations.
- Continually improve its environmental performance by implementing an effective management system.
